

Part 1- State-Based Testing - Appointment Lifecycle

Task 1.1 – State Diagram

Task 1.2 – State Transition Table

Current State	Event	Guard Condition	Next State	Action
Scheduled	check_in(appt_id)	appt_date = today	CheckedIn	status = CheckedIn
Scheduled	cancel_appointment()	≥ 24h before appt	Cancelled	late_cancel = False
Scheduled	cancel_appointment()	< 24h before appt	Cancelled	late_cancel = True
Scheduled	mark_no_show()	appt time has passed	NoShow	status = NoShow
CheckedIn	start_visit()	provider available	InProgress	status = InProgress
CheckedIn	cancel_appointment()	admin role only	Cancelled	status = Cancelled
InProgress	complete_appointment()	notes provided	Completed	status = Completed
InProgress	cancel_appointment()	admin role only	Cancelled	status = Cancelled
Completed	any	—	Completed	No Change
Cancelled	reschedule_appointment()	future datetime	Scheduled	create new appointment
NoShow	reschedule_appointment()	future datetime	Scheduled	create new appointment
